To comply with Public Health directives and preserve the safety of clients and staff, we will be offering a combination of online, in-person and blended learning programs. Staff remains available to serve you via phone, video-conferencing or email.

**Please note: due to funding criteria, we are unable to serve Canadian Citizens and Refugee Claimants at this time.*

Artificial Intelligence is impacting the future of workplaces through the implementation of machines that perform tasks that require human intelligence. Understanding the language, concepts and patterns of AI can support your employability skills and prepare you for the workplace. This session will provide an overview of AI and Generative AI concepts and explore their relevance, and application for professionals working within a non-technical environment.

In this session you will learn:

- The skills and knowledge needed for professionals to leverage AI
- The impact of AI in workflow and job duties
- Practical tips for non-technical professionals
