

## Crayon Brain Teasers

I hope you enjoy trying to figure these puzzles out. Sometimes you might find it helpful to re-create the picture with pens, markers, crayons on a table. I find it easier when I can touch them!

1. **Fish Challenge:** Move 3 crayons so the fish is swimming in the other direction.

2. **Ten Challenge:** Move 6 crayons to make 10.

3. **Jumble Challenge:** Place the 6 crayons in a way that each crayon is in touch with the other 5 crayons.
